

FSTA[®]

sciences of food and health

THE DATABASE DESIGNED FOR THE FOOD COMMUNITY

We know that searching online for reputable and relevant research can be a frustrating and time-consuming exercise.

It's no surprise then that many in the global food community are fed up with scrolling endlessly through unsuitable results - however, there is a solution: FSTA!

WHY FSTA?

FSTA can be trusted by those studying and working in the sciences of food and health because it's been developed expressly for them.

Containing only information which is relevant to food, beverages and nutrition, FSTA is carefully structured making it highly effective for information searching in the sciences of food and health. This enables researchers, scientists and students to retrieve high quality, interdisciplinary results with a minimal chance of false hits.

WHAT INFORMATION CAN YOU SEARCH?

Confidently research content carefully curated by experts in the sciences of food and health.

- Discover research from 89 countries, in 41 languages.
- Search over 2,000,000 high-quality abstracts, all directly related to food and beverages.
- From approximately 22,000 international sources, including 5300 journals and trade publications as well as, patents, reports, books, standards and conference proceedings
- Approximately 2,200 new records are added to FSTA each week
- Reference abstracts that span over 50 years of research.
- Keep up-to-date with cutting edge research, with weekly updates

RESULTS YOU CAN TRUST

You can be confident everything you find on FSTA is relevant to your field and meets high standards of scientific validity and rigour.

The FSTA database is closely managed by a team of expert scientists, who rigorously assess every title indexed, filtering out predatory and substandard journals.

Discover powerful search functionality designed specifically for food and beverage research

Make targeted search queries referenced against the world's most comprehensive food thesaurus

TRAINING AND PROMOTIONAL MATERIALS

Did you know we offer free training demos and promotional resources for organisations using FSTA? This applies to both subscriptions and trials to help users get the best out of their access. Contact Rhianna Gamble, Head of Marketing, at r.gamble@ifis.org.
